# LED LIGHTS FOR BRIGHTER INDOORS

## FACTS ABOUT LED LIGHTS

- Can reduce energy usage by up to 80%
- Don't need to be replaced or maintained for up to 10 years
- Significantly reduce fire risk

### LED Downlights

**INSTALLED FROM \$75** per fitting

Does your house have sufficient lighting in all rooms? We install Voltex LED downlights, which are covered by a 7 year warranty. Imagine not worrying about your lighting for the next 7 years!

### LED Batten Fittings

**INSTALLED FROM \$140** per fitting

Dingy garage, shed or large room? LED Batten Fittings are the perfect solution. With weatherproof options too, they are the most versatile lighting solution!

### LED Oyster Light Fittings

**INSTALLED FROM \$100** per fitting

Oyster Lights are energy saving LED fittings. Ideal for laundries, bathrooms, dressing & powder rooms, study and bedrooms. Can be switched from Daylight to Cool White & Warm White. This light can also be dimmed.

Quick Tip

Adding a dimmer adds flexibility to the use of lighting in each room. It also allows you to easily adjust the ambience and mood of the room!

## NO DARK CORNERS OUTSIDE

### LED Floodlights

**INSTALLED FROM \$150-\$550** per fitting

Back yard, driveway or tennis court needing a lighting upgrade? With such a wide beam angle, LED flood lights provide even lighting for large open areas.

### LED Batten Fittings - Weatherproof

**INSTALLED FROM \$150** per fitting

LED weatherproof battens are the perfect solution for external areas that may be subject to harsh weather conditions. They provide a bright, crisp light.

## GET SECURED WITH SENSORS

### 360 Degree Motion Sensor - Indoors

**INSTALLED FROM \$150** per fitting

This ceiling mounted motion sensor is suitable for indoor use or under the eaves outside. This sensor turns selected lights on when movement is detected. It has a lux sensor too, which means your lights will not be activated during daylight.

### 360 Degree Motion Sensor - Outdoors

**INSTALLED FROM \$170** per fitting

This weatherproof wall mounted motion sensor is suitable for harsh outdoor use. Have this sensor installed with your new outdoor floodlights or battens or have it activate your existing outdoor lights. Similar functionality to indoor sensor.

# WHY CHOOSE US?
